Outline

Motivation

- Introduce the main topic.
- Explain why it matters.
- Give a brief example.

Basic Equation

The following equation illustrates a simple relationship:

$$E = mc^2$$

This relates mass and energy according to Einstein's theory.

Example Figure

C++ Example

Below is a short C++ code snippet demonstrating a simple class:

```
1 // Simple C++ example
2 #include <iostream>
3 using namespace std;
4
5 class Hello {
6 public:
7     void greet() {
8         cout << "Hello, world!" << endl;

Temporary page!

\LaTeX was unable to guess the total number of pages correctly, so there was some unprocessed data that should have been added to the next page. This extra page has been added to receive it.

If you rerun the document (without altering it) this surplus page will be removed, because \LaTeX now knows how many pages to expect for the document.
